(EXCLUSIVE DISPATCH.)

WASHINGTON, July 29.—Los An-  
geles will have two great celebra-  
tions when Secretary Daniels  
visits the Pacific fleet at Los An-  
geles Harbor, Saturday, August 9,  
and the other when President Wil-  
son reaches Southern California  
about Labor Day.President Wilson's "settled de-  
termination to be in Los Angeles  
August 11, and review the fleet  
is well as a second review on Au-  
gust 15 in San Francisco has been  
announced by his physician, Ad-  
miral Grayson. The latter has  
advised the President to postpone the  
trip two weeks, leaving Washing-  
ton about August 15 or 20 and go-  
ing out by the northern route. He  
will therefore reach Los Angeles  
according to the latest schedule  
about the last of August or the first  
of September. This latter date this  
year is Labor Day. September 9 is  
Armistice Day and a holiday in  
California. It is planned that the  
President will be in Los Angeles on  
one of these days if possible.The President has agreed upon  
a itinerary but it will not be an-  
nounced until the definite day of  
arriving is settled beyond all chance.  
Hoodon which has him at the  
very effort of the President to visit  
the Pacific Coast seems still to be on  
his job and mind. The President  
of the White House will believe that  
he is going to the Coast until he has  
arrived there.The delay of the delay, it is said

Mrs. Wilson is expected to ac-  
company the President on the trip  
and the entire journey to the Coast  
and back is expected to take thirty  
days.The train carrying the President  
party will not be run as a spe-  
cial, but a second section of a regu-  
lar passenger train. To date, twenty-  
two newspapers and news associa-  
tions have asked to be permitted to  
send correspondents on the tour and  
the number probably will be in-

make not less than twenty-five set  
addresses, headed by brief and  
impromptu speeches and responses  
to committees of welcome, etc.Because of the numerous criminal  
cases which have been pending in  
Los Angeles, it is understood he will go West by  
the northern route, coming back by way

PRESIDENT SUICIDE.

(BY CABLE AND ASSOCIATED PRESS.)

GENEVA, July 29.—Alexander  
Garbai, president of the  
Hungarian soviet government,  
killed himself in the Assem-  
bly building at Budapest after  
delivering a speech against the  
soviet and the communist  
supporters and accusing Bela  
Kun, the soviet leader and  
Minister of Foreign Affairs,  
of leading the nation to ruin,

Hungarian people's commis-  
saries visited Col. Cunning-  
ham, the Allied representa-  
tive, at Budapest today, ac-  
cording to the Berlin Lokal  
Anzeiger, and proposed nego-  
tiations for the peaceful res-  
ignation of the soviet and  
the formation of a new gov-  
ernment. The proposal was  
said to have been forwarded  
to the supreme council at

The impression has been gathered  
by those near the President that  
he wishes to make the transcon-

the peace treaty ratification by  
the Senate as to make sure the coun-

led to its acceptance.He will not leave Washington

Marshal's Advice.Out of Sympathy with Food  
Propaganda of Supreme  
Council at Paris.Coalition of Eastern Bolshe-

European Menace.

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, July 28.—An insight into  
the situation in Europe is afforded  
by the note of the Allied powers to  
the Hungarian people, appealing  
them to overthrow Bela Kun's Bol-  
shevist government, when food will  
be given to them and Allied forces  
withdrawn from Hungarian terri-  
tory. Hungary is nominally a con-  
quered country, yet the Allies have  
placed themselves in the position of  
feeling obliged to make overtures to  
its population on the chance that the  
promise of full stomachs will cause  
them to rise and install a central  
authority that will live up to the terms  
of the armistice which Austria-Hun-  
gary was forced to accept last Novem-  
ber.Behind the mollifying course of  
the supreme council at Paris which  
is acting for the Allied governments  
lies the concern over the menace of  
Bolshevism.Bela Kun, who was closely asso-  
ciated with Lenin and the Bolshevik  
notions and has sought to put them  
into effect in Hungary. He is in  
constant communication with Lenin  
and his policy has indicated its be-  
ing directed from Moscow.CAUSE OF CONCERN.  
The present concern of the Allies  
over the Hungarian situation arises  
largely from the announced inten-  
tion of Bela Kun to bring about a  
coalition between the Bolshevik  
forces in Eastern and Southeastern  
Europe.In beginning his offensive  
against Rumania—an Allied nation  
and a member of the League of Na-  
tions—Kun has threatened to  
Russia to join Hungary with the  
purpose of amalgamating all Bol-  
shevist elements in these countries.  
They proposed the application of the  
principle of internationalism which  
furnishes a menace to the security  
of the world.The foundation of a condition that  
will again upset the equilibrium of  
the world.Foch is entirely out of  
harmony with the supreme council  
in the opinion as to how the situa-  
tion should be handled. He has  
succeeded in restoring order in  
Hungary and re-establishing Allied  
prestige is the use of strong methods  
and in other words the use of force.  
Instead of sending wireless mes-  
sages into the air in the hope that  
they will be spread among the Hun-  
garian people and cause them to  
overthrow the Bela Kun regime.The only encouraging aspect of  
this state of affairs in Hungary is  
that Bela Kun controls a compar-  
atively small portion of the country.  
His authority extends over Buda-  
pest and the surrounding area, and  
a limited surrounding area.FOCH FAVORS FORCE.  
Foch would have the supreme  
council give him authority to unite  
the forces of the Allied powers in  
Europe under one command and  
use this combined army in opera-  
tions against Bela Kun. To the  
council yesterday he expressed con-  
fidence that he could soon become  
master of the situation if this method  
were followed. In Foch's view, it  
will not be necessary to call on  
the Allied nations for more troops than  
are now in Southeastern Europe.The French army is locally es-  
timated to have the strength of 5000.  
With this nucleus Foch would or-  
ganize a united command of 150,000  
men, including his Russian, Czechoslovakian and Jugoslav troops  
now under arms. It is clear  
as crystal that he cannot expect any  
help in men from the United States.  
Great Britain and Italy and it is  
not to be supposed France would  
aid to her 90,000 which Foch wants  
to use immediately.The position of the United States  
in regard to furnishing troops to  
enforce the observance of the arm-  
istice conditions and help to bring the  
war back to normal was indicated  
yesterday at the meeting of the su-  
preme council when consideration  
was given to polling upon Silesia.MAGNETITE TARIFF FIXED.  
(BY A. P. NIGHT WIRE.)  
WASHINGTON, July 29.—Re-  
publicans of the House Ways and  
Means Committee today reached a  
final agreement on tariff rates on  
magnetite to be recommended to  
Congress. Imports of crude magne-  
tite would be taxed at 10 a ton; fi-  
nished magnetite, 15 a ton, and  
manufactured bricks 25 per cent. ad  
valorem plus 15 a ton.LOAN MILLIONS TO KOLCHAK.  
(BY A. P. NIGHT WIRE.)  
NEW YORK, July 29.—Negotia-  
tions have been opened here with  
an international banking group for  
a loan of several million dollars to  
the Kolchak or anti-Bolshevik fac-  
tion in Russia, according to re-  
ports current yesterday in the finan-  
cial district. It is understood the  
proposed transaction was the ap-  
proval of the United States govern-  
ment.WOMEN TO VOTE IN NEXT  
PRESIDENTIAL ELECTIONFavorable Action on the Amendment  
by a Sufficient Number of States  
Seems to be Assured.(EXCLUSIVE DISPATCH.)  
PORTSMOUTH (N. H.) July 29.—Action by a sufficient  
number of State legislatures to ratify the Federal amendment  
early enough to enable the women to vote in the next Presiden-  
tial election seems assured by the poll of the governors now be-  
ing taken by Gov. Bartlett of New Hampshire.Forty-one replies to his query have been received, these  
showing that eleven States already have ratified the amendment  
and that thirteen other States will have regular or extra legisla-  
tive sessions between now and next May.Three of the States to be heard  
from are almost certain to have ap-  
proved the amendment. Backman of Rhode Island  
said: "I expect the suffrage amend-  
ment to be ratified during the first  
week."Gov. Stephens says: "California  
has had equal suffrage since 1911.  
California's Legislature when called  
will in my judgment ratify the na-  
tional suffrage amendment unani-  
mously."Gov. Bartlett gave the following  
statement to the correspondent: "I  
decide after the war, have been  
desirous, however, before putting  
New Hampshire to the expense of an  
extra session, to make sure that our  
efforts would not be wasted."The polls of the State which had  
come to me did not come with suf-  
ficient directness to make me feel cer-  
tain and I therefore personally  
wired each Governor. The frank-  
ness and promptness of their replies  
delight me. From them, I feel that  
women have a good fighting chance  
to vote at the next Presidential  
election but they should make no  
effort. I have heard from forty-one  
States. Of these eleven have  
ratified, eighteen are expected to  
do so.Of the six to be heard from  
(Alabama, Delaware, Idaho, New  
Jersey and Virginia) I am in-  
definitely informed that Idaho  
and Nevada will have regular  
sessions in season, making a total  
of thirty-four States which are  
either favorable or hopeful of at  
least.ELEVEN HAVE RATIFIED.  
The States that have already re-  
ported ratification include New  
York, Massachusetts, Missouri,  
New York, Nebraska, while  
Texas, Michigan, Illinois and Kan-  
sas.The ratification in Kansas seems  
to have been done with enthusiasm.  
Gov. Allen says: "Kansas Legisla-  
ture in special session lasting five  
hours ratified the suffrage amend-  
ment on June 18. Legislators  
waived per diem and mileage and  
accepted only actual expenses. The

BACKWARDNothing Constructive  
to Offer.Only Argument is Denuncia-  
tion of Policy of England  
in the Past.No Sign of a Desire to Arrive  
at Practical Solution of  
Problem.

(BY JOHN S. STEEL.)

DUBLIN, July 29.—Today I  
have been living in the past. For  
two hours I have been listening to  
Mr. Ginn, vice-president of the  
Irish republic, and in the absence of  
Kamonn de Valera, acting Presi-  
dent, expound the wrongs of Ire-  
land at the hands of England for  
the last 700 years. I have not heard  
one word of constructive policy, but  
merely denunciation, not even a  
sign of a desire to arrive at a prac-  
tical settlement, but an evident desire  
to make clever talking points  
against Great Britain without re-  
gard for immediate improvement of  
the relations between the two coun-  
tries or in the condition of Ireland.I hope this does not seem a prej-  
udiced view, but it is the impression  
left on my mind, and I entered the  
Irish White House prepossessed  
in favor of Mr. Ginn, who had been  
described to me as a man of brains,  
honesty, and ability.THE IRISH WHITE HOUSE.  
The Irish White House is an old  
building at 4 Harcourt street, which  
was the residence of Cardinal New-  
man during his ministry in Dublin.  
It bears many traces of past glori-  
ous, but it is woefully bare and de-  
lapidated today.I found the acting President in  
a back room on the second floor,  
scarcely furnished with a bare wood-  
en table and a couple of chairs. This  
is the editorial sanctum of Nation-  
ality, a Sinn Fein organ of which  
Mr. Ginn is editor. Unmistakably  
Mr. Ginn is a clever man, but he  
seems to be a man obsessed with  
his own cleverness and more anxious  
to display it than to accomplish  
actual progress. To him mind words  
are more important than deeds.Let me not be understood as  
impugning in any way his patri-  
otism. I believe he is a thoroughly  
patriotic Irishman and doing what  
he thinks best for his country. His  
judgment, not his heart, is at fault.AGAINST DOMINION RULE.  
In reply to my first question about  
the attitude of the Sinn Fein party  
towards the proposal for dominion  
rule he said:  
"No form of dominion home rule  
is satisfactory to us, because the  
country has declared for absolute  
independence, and we think we can  
make it possible."In reply to further questions he  
said:  
"I admit the military obstacle  
is there, but we propose to over-  
come it as other countries, such as  
Poland, Bohemia, etc., have over-  
come it, as soon as President Wil-  
son carries out the principles he  
announced in making. The military  
obstacle cannot overcome us. The  
power which rules by military force  
alone can never succeed against  
the people and the land."Discussing economic relations,

## BULLETINS.

DETROIT, July 29.—(Exclu-  
sive Dispatch.) Property for  
one of the largest industrial  
projects ever launched in De-  
troit was purchased today by  
Dodge Bros., who are said to  
have secured 278 acres on the  
west river front, extending  
from Zug Island to the Grand  
Lakes Engineering Works and  
reaching back to the Detroit,  
Toledo and Grand Rapids  
tracks from the River Rouge  
Improvement Company. The  
price paid was about \$7500 an  
acre, or \$2,065,000 for the site.  
Official confirmation is lacking,  
but it is generally believed that  
blast furnaces and steel rolling  
mills will be established rival-  
ing the Henry Ford enterprises  
of similar nature in the same  
vicinity.CHICAGO, July 29.—Dough-  
fresh outbreaks tonight in the Chi-  
cago race war, city officials at mid-  
night professed themselves satisfied  
with what the police were doing,  
and several thousand State troops  
remained in barracks. At that hour  
the death list totalled 27, two ne-  
groes and two whites having been  
killed during the evening and an-  
other negro having died of wounds  
received Monday. The injured list  
had been swelled by uncounted  
scores and several of the wounded  
may not survive. Disturbances  
were reported from the South Side  
"black belt," an Italian district on  
the West Side and from the near  
North Side.The first pitched battle of the  
night occurred at Thirty-fifth and  
South State streets. At that hour  
scores of trouble since the first rioting  
Sunday. A small automobile filled  
with whites, each armed with a  
pistol and all firing indiscriminately  
at blacks, crashed into a patrol  
wagon at the street intersection.Two of the whites were killed in  
the collision. Two others and  
every policeman in the patrol wagon  
were hurt.Immediately there was a rush of  
blacks and policemen to the wreck.  
The police could not push the en-  
raged mob away and opened  
fire, killing one negro and wounding  
thirty others.The body of a negro who had  
been shot to death and burned was  
found in the West Side Italian dis-  
trict when the riot assumed the  
form of a race war. He had been  
stabbed and gasoline poured on his  
body.TROOPS IN READINESS.  
Four regiments of State troops  
were on duty in Chicago this eve-  
ning. The soldiers, plentifully sup-  
plied with food, were distributed  
about the South Side  
negro district in barracks as a sup-  
port to the riot. About 2000  
State and city authorities early  
announced themselves as deter-  
mined to prevent repetition of  
last night's terrorism—a terrorism  
which had spread rapidly  
throughout the day and created a  
threat which the law-and-order  
forces were quick to head.REINFORCEMENTS ADEQUATE.  
In addition to the four regiments  
on the ground, consisting of the  
Eleventh Infantry, Illinois National  
Guard, and three regiments of re-  
serve militia, the Ninth and Tenth  
regiments of the guard and three  
other reserve units were mobilized  
for various wars throughout the  
city. This gave a potential mili-  
tary force of approximately 15000  
as a background for the city police  
force.The city authorities expressed con-  
fidence that the police would be able  
to handle any trouble that developed  
tonight.POLICE CONCENTRATION.  
The police concentration was the  
most complete in the city's history  
since the rioting began. It was  
successfully with the Haymarket an-  
archists more than three decades ago.  
It was undertaken after three days  
and two nights of rioting here.

(BY A. P. NIGHT WIRE.)

CHICAGO, July 29.—Dough-  
fresh outbreaks tonight in the Chi-  
cago race war, city officials at mid-  
night professed themselves satisfied  
with what the police were doing,  
and several thousand State troops  
remained in barracks. At that hour  
the death list totalled 27, two ne-  
groes and two whites having been  
killed during the evening and an-  
other negro having died of wounds  
received Monday. The injured list  
had been swelled by uncounted  
scores and several of the wounded  
may not survive. Disturbances  
were reported from the South Side  
"black belt," an Italian district on  
the West Side and from the near  
North Side.The first pitched battle of the  
night occurred at Thirty-fifth and  
South State streets. At that hour  
scores of trouble since the first rioting  
Sunday. A small automobile filled  
with whites, each armed with a  
pistol and all firing indiscriminately  
at blacks, crashed into a patrol  
wagon at the street intersection.Two of the whites were killed in  
the collision. Two others and  
every policeman in the patrol wagon  
were hurt.Immediately there was a rush of  
blacks and policemen to the wreck.  
The police could not push the en-  
raged mob away and opened  
fire, killing one negro and wounding  
thirty others.The body of a negro who had  
been shot to death and burned was  
found in the West Side Italian dis-  
trict when the riot assumed the  
form of a race war. He had been  
stabbed and gasoline poured on his  
body.

SEES BIG INJURY  
TO THE PACKERSE. A. Cudahy Replies to Fed-  
eral Operation Plan.Says Would Hurt Livestock  
Producer and Consumer.Most of Statements of Com-  
mission Called Unfair.

(SPECIAL DISPATCH.)

CHICAGO, July 29.—E. A. Cudahy,  
president of the Cudahy Packing  
Company, today made the following  
statement in answer to the report  
of the Federal Trade Commission last  
night:

This report is nothing more than  
what has been already issued by the  
Trade Commission several times  
during the past year and which has  
been answered most thoroughly by  
the various packers, especially be-  
cause Congress last winter. For  
the Cudahy interests I most respect-  
fully protest against the continued  
propaganda of this character by a  
government body, such as the Trade  
Commission, this is put out obviously  
in the endeavor to force the passage  
of measures in Congress advocated  
by the Federal Trade Commission  
for government operation of a private  
and very complex business. It en-  
sued those would be to the great in-  
jury of not only the packer, but  
the live-stock producer and the con-  
sumer as well.

Again I want to assert that frequent  
reference is made to various  
transactions and statistics given out  
as to the methods and volume of  
business of the big five, showing the  
control which they are thought to  
exercise over the food supply of the  
country. Our company has been  
constantly in active competition with  
all other packers. The figures as  
given out are combined figures and,  
of course, the totals are very large.  
But large figures are frequent in the  
packing industry, even for individual  
companies and combined totals cer-  
tainly do not show combination of  
interests.

HEARING OFTEN ASKED.

The Cudahy interests frequently  
requested the Federal Trade Com-  
mission to give us a hearing or to  
exhibit any evidence which they  
may have to justify their charges  
against us, and no such opportunity  
has been allowed us. Most of the  
statements of the Federal commis-  
sion are unfair and erroneous. For  
example, in their present report we  
understand that they class the  
Wichita Union Stockyards as being  
one of those controlled by the big  
five. These yards are not so con-  
trolled and never have been.

Many years ago our company was  
solicited by the Stockyards Company  
to take over a small plant at Wichita  
and to aid in establishing the market  
there. We received a bonus of stock  
in the company as was usual at  
the time and entirely legal. We  
have spent hundreds of thousands of  
dollars developing the plant and the  
market and we believe that no citi-  
zen of Wichita, nor any live-stock  
shippers to that market will take  
any other position than that our in-  
terests there have been largely to  
the benefit of the town and the live-  
stock shippers. Of course, it has  
been successful. That is what we  
are in business for.

SOLE OWNER OF YARDS.

Neither Armour, Morris, Wilson  
nor Swift has any stock interests  
in the Wichita yards. In all the re-  
maining list of stockyards markets  
our company has no interest at all  
with the exception of a few shares  
in one locality. But the charge is  
made that the big five control them  
all. This shows how figures may be  
juggled and false impressions  
created. Ownership of stock in a  
yards company gives no control over  
the market prices or the commis-  
sion men there. As regards the sup-  
pression of competition and unfair  
methods to competitors and the  
public I have to say that the Fed-  
eral Trade Commission itself under  
the law has the right to receive  
complaints from any party injured  
or itself to file a complaint to re-  
move such an evil. It seems to me  
that general charges of criminal  
practices such as this are not just-  
ified and that no such statements  
ought in any event to be made prior  
to the time when a regular hearing  
has been had and all parties rep-  
resented and the conclusion reached  
on the basis of the testimony intro-  
duced.

I bespeak at this time the with-  
holding of any opinion on the part  
of the public adverse to us. We  
fully realize the difficulties caused  
by the high prices and the strain  
they make upon the average house-  
holder, but the high prices are not  
caused by the packer. In fact our  
operations are conducted with such  
efficiency and at such a nominal  
profit that we are a decided factor  
in holding prices down from what  
otherwise they would be.

MICHIGAN INVESTIGATION.

(BY A. P. DAY WIRE.)  
DETROIT, July 29.—Operations  
of the big packing companies and  
other concerns dealing in foodstuffs  
are to be investigated by ATTY-Gen.  
Alexander J. Groesbeck, to deter-  
mine whether prices are controlled  
in violation of Michigan's anti-  
trust law. In making this an-  
nouncement today Mr. Groesbeck  
stated that if investigation showed  
any combines violating the State  
law, an effort would be made to  
bar them from doing business in  
the State.

CLAIM PRICE FIXING  
IS PROVIDED IN LAW.

(BY A. P. DAY WIRE.)  
SAN FRANCISCO, July 29.—The  
admission of evidence regarding the  
regulation of actual price fixing was  
submitted over the opposition of the  
prosecution here today in the trial  
of fourteen members of the Associ-  
ated Milk Dealers of San Francisco,  
on a charge of combining to estab-  
lish prices in violation of existing  
anti-trust laws. The defense held  
that the laws alleged to have been  
breached provided for combination  
of industries and the fixing of fair  
prices by such combinations.

P. M. McGuire, former secretary  
of the defendant association, was  
the first witness. During his testi-  
mony, Fred L. Berry, assistant Dis-  
trict Attorney, said that Harris  
Wetmore, State Market Director,  
should have been indicted in the  
present action, following statements  
by defense attorneys that on one  
occasion he directed the fixing of  
prices for the association.  
The trial is before a jury from  
which all women taleamen were  
challenged and excused.

## Bullock's August Clearance

Friday!  
—August First*the First Day of Bullock's August Clearance*  
*"The One Sale of the Year"*

"JUST look at these *Coats!*—Did you ever see Values to equal them? Look at the *Boliva* cloth, and the fullness of them and the way they are made!—and these *Dresses* of Silk and *Tricolette*—why it's perfectly ridiculous to my mind—Do you know you can not buy on the New York market *Dresses* and *Coats* to take their places unless you pay ever so much more?"—  
—Then there were *Suits*, such *Suits!* and such markings—Every single one of them imbued with the spirit of Bullock's August Clearance—and *Blouses!* and *Negligees!* *Housedresses!* *Hosiery!* *Gloves!* *Shoes!* *Handbags!* *Silverware!* *Handkerchiefs!* *Toilet Goods!* *Notions!* *Men's Silk Shirts and Neckties!* *Thermos Bottles!* *Sporting Goods!* *Trunks, Bags and Suitcases!* *Curtains!* *Rugs!* *Furniture!* and not the least by any means—

## The Silks and the Laces!

—The writer went on an extended exploring trip on Monday—through the realms of this Bullock August Clearance Merchandise, some of which is just beginning to make its appearance in windows fronting on Broadway and on Seventh street—most of which is hidden "behind the trees and in the caves of the store," out of sight until Friday—

—One needs a guide to find it now—and then an armed force to drive one away, for Temptation lurks everywhere, Temptation greater than ever a Bullock August Clearance offered before—Temptation emphasized and enhanced by a market over which prices are "flying in Aeroplanes," and demand is in excess of supply—

—There are logical reasons why Bullock's August Clearance shouldn't be at all this year—

—The real facts are that Bullock's August Clearance *will be*, and bigger than it has ever been before, largely, perhaps, because of the Sentiment that attached to this event that is by way of being more an Institution than a sale; the Sentiment that inspired Work to commence early and continue late—toward the provision of Merchandise and opportunities to supplement the clearance of Bullock's own stocks; the Sentiment that never lost sight of Bullock standards—that insisted upon the overcoming of obstacles—that recognized only achievement and success—

—and so, much has been done in face of conditions which promised that little could be done—

—and again Time stands upon the threshold of "The One Sale of the Year" and "The One Sale of the Year"—has its hand upon the knob to Open the door—

—Friday, August 1—at 9 o'clock in the morning, Bullock's August Clearance—Every section of the store is concerned—

—If you do not know, for fear that you may underestimate, it is suggested that you "Ask your Neighbour!"

## ADOPT NO-SMOKING RULE. WOODEN SHIPS IN BIG DEMAND. Crown City Employees Denied Privilege; Pasadena Maids Wear Half Hose.

**(LOCAL CORRESPONDENCE.)**  
PASADENA, July 29.—Fire caused a series of accidents in Pasadena today and at the same time caused the adoption by the City Commission of a resolution prohibiting municipal employees from smoking while in public buildings. This was the direct result of a city official throwing a lighted cigar out of a window and lighting an awning. No damage was done except to the awning.

While fire apparatus was responding to a call caused by a chimney blaze at the home of A. A. Weymouth, 182 South Marengo avenue, Acting Fire Chief Arthur Holmes' car struck the trailer of a Ford. No one was hurt. At the same time an auto struck J. E. Johnson, a cyclist, knocking him over, but not injuring him seriously.

**HALF-HOSE POPULAR.**  
Pasadena maids and matrons have not taken to the stockings and garters, but keep observers ever that they are going in for half-hose. Several of the young women who work at the City Hall, a structure on which the maids down right heartily have adopted half-hose, are wearing the top-thigher, ruffled, ribbon-trimmed hose. Since the City Commission has abolished smoking on the part of male employees, the progressive devotees of the half-hose are now fearful of an edict against sex for women.

**NEW APARTMENT COURT.**  
Aristocratic precincts of South Grand avenue are to be invaded by an apartment-house. J. W. Myrants of Columbus, O., and Pasadena, announced here today that they would erect an apartment court on the corner property he owns at Grand avenue and West Colorado street.

**FEARED THE FUTURE.**  
Thought of Becoming a Burden Leads to Self-Destruction.

**(LOCAL CORRESPONDENCE.)**  
POMONA, July 29.—H. O. Swain, who with his brothers recently purchased the Harmon Confectionery store in this city, shot and killed himself today. Swain was found dead in the store. His brother, J. W. Swain, and J. F. Barnes, the former owner, were in the front of the store. Swain had placed the muzzle of a revolver in his mouth and pulled the trigger. He left a note on the desk saying "I am tired and the fear that he would become a burden on some one, was the cause of the act." The deceased was 32 years of age and was a native of Southern Michigan. He came to Los Angeles a year ago, and a time in England in a confectionery store at Twenty-fourth street and Vermont avenue in that city.

## LOS ANGELES GIRLS HAVING ADVENTURE.

**(LOCAL CORRESPONDENCE.)**  
TULARE, July 29.—Just because they boasted to their friends they could do it, Miss Florence Bryant and Miss May Linder, attractive young women of Los Angeles, are on their way to Vancouver, B. C., on their way to the city of the Pacific. The first stage of their journey was made practically without interruption. They were in the auto touring grounds here. They had ridden in many places, and had been declared, and had been practically none of the distance. Miss Bryant boasted of having made similar trips. One object of her journey, she said, was to secure local color for a story of the road on which she is at work at the present time.

## SPORTS FOR JACKIES.

**(LOCAL CORRESPONDENCE.)**  
SANTA MONICA, July 29.—Believing that the members of the Pacific fleet crew that will visit here some time next month will prefer out-door amusement to the formality of inside entertainment, the city will arrange the program for the visitors with that end in view. All bath-houses, tennis courts, golf links, baseball and cricket grounds will be thrown open for the free use of the crews of the ships that come to Santa Monica. The city's baseball team and the Santa Monica Cricket Club have challenged members of the fleet to a game to be staged during their stay here. Mayor S. L. Berkeley will, in a few days, write a letter of invitation and greeting to Admiral Hugh Rodman.

## THE SHAMROCK WINS.

**(LOCAL CORRESPONDENCE.)**  
VENICE, July 29.—When the Venice Trusts, which last night the city fire hydrants would have to be repaired, it was suggested that they be painted a "good Irish green." The words were spoken by John Molitor, of Dutch birth, who is city plumber of Venice, and who is painting anything an Irish green. "If there's any other kind of a green, all right," he said, "but not an Irish one."

He was called to order by Mayor Coker, who told him that as long as he is city plumber he will obey orders.

## MUNICIPAL SPLASH.

**(LOCAL CORRESPONDENCE.)**  
VIRALIA, July 29.—The City Council meets for its next regular session the members will be asked to pass on a petition for a bond issue of amount sufficient to construct a municipal swimming pool. W. W. Middlefield, Assistant City Attorney, is circulating the petition, and says he has had unofficial assurances of support from the city officials.

## WOODEN SHIPS IN BIG DEMAND.

Increase in Lumber Shipments Call for More Tonnage.

## Los Angeles Built Boats to be Used in European Trade.

## Conditions Growing Out of War Benefit Pacific Coast.

**(LOCAL CORRESPONDENCE.)**  
LOS ANGELES HARBOR, July 29.—Increased building on the Pacific Coast has created such a demand for lumber that there is a great shortage of tonnage. The result is that a revival of wooden shipbuilding is expected to supply the demand for steam schooners. Due to heavy shipments of lumber the demands for ships of this type, which is particularly adapted to the economical handling of lumber, is growing every day. Lumber shippers are hard pressed for suitable tonnage.

## FIRST DIRECT SERVICE.

That Los Angeles-built ships will be the first to compete with those of the British flag in the trade between the Pacific Coast and Europe is the news contained in the announcement that the Diamond & Co. Pacific Coast agents for the new line of Shipping Board vessels. The new service will be inaugurated by the steamer West Alton, which is on berth for Copenhagen to sail this week from San Francisco. It will be followed in August by the West Cayote for London and Havre calling here to complete her cargo.

## REDLANDS, July 29.—F. N. Gravel, a prominent member of the Masonic fraternity of San Diego, was found dead in his bed at a local hotel last night. His death was due to a hemorrhage of the lungs according to the coroner's verdict.

A. J. Demers, of San Diego, was named as the executor, and is expected to arrive in the city later today to make arrangements for the funeral. Gravel has three brothers living in the East. He has been here for five months, but made few acquaintances.

## HOLD "HARD BOILED" FOR INVESTIGATION.

**(LOCAL CORRESPONDENCE.)**  
MENTONE, July 29.—John Pedro, "hard-boiled" according to his own admission, charged with vagrancy and with having frightened a number of housewives by his demands for food, is in the County Jail while the officers of this section are attempting to locate his relatives. A. J. Demers, of San Diego, was named as the executor, and is expected to arrive in the city later today to make arrangements for the funeral. Gravel has three brothers living in the East. He has been here for five months, but made few acquaintances.

## INTERESTING EXPERIENCES.

**(LOCAL CORRESPONDENCE.)**  
POMONA, July 29.—Mrs. A. L. Roseberry of 110 West Alameda street has received a telegram from her son, Basil Roseberry, announcing his arrival in New York from France. The signing of the armistice has had the decidedly interesting work of driving an automobile for officers in the military and naval service.

## ENTERTAIN SAILORS.

**(LOCAL CORRESPONDENCE.)**  
SANTA BARBARA, July 29.—Santa Barbara is planning a jollification for the officers and men of the two battleships and five destroyers, part of the Pacific fleet, to stop here Tuesday, August 12. Barges to be used for special landing places will be towed from San Pedro. Dances, wrestling and boxing matches are being arranged. Mayor H. C. Taylor, of Santa Barbara, is planning to give a banquet for the fleet at the city hotel.

## THIRLING EXPERIENCE.

**(LOCAL CORRESPONDENCE.)**  
FULLERTON, July 29.—Ed Young, a drifter on the West Coast, was in the hospital here as a result of getting his right hand caught in the blocks and being drawn up several feet by the derrick where he hung suspended for some time. All of the fingers were broken and the hand crushed and bruised. Physicians say they can save the hand.

## MAKE GOOD TIME.

**(LOCAL CORRESPONDENCE.)**  
VENTURA, July 29.—Henry L. Kohl, accompanied by his wife and two children, left here on July 1 in an automobile and arrived in Ventura, July 24. They spent a week stopping at various places, reducing the actual running time to three weeks. The trip was taken as a test of the city of Ventura about the city. The party are guests of Mr. Kohl's brother, Louis R. Kohl of Ventura.

## FLEET AT VENTURA.

**(LOCAL CORRESPONDENCE.)**  
VENTURA, July 29.—George J. Little, president of the Chamber of Commerce, has received word from Representative Hersman that the Pacific fleet will pass in review before the city of Ventura about the middle of the day of August 13. Persons from all parts of the county are planning to go to the coast that day to watch the big fleet.

## TAKE BELL-ANS BEFORE MEALS.

And you feel good digestion really pay you.

## SANTA ANA JUDGE ENEMY OF BOOZE.

**(LOCAL CORRESPONDENCE.)**  
SANTA ANA, July 29.—Superior Judge Z. B. West would tackle a mighty big job if he could. Sort of Carrie Nation stunt!

"Booze is the culmination of all hellishness," he declared from the bench today. "If I had my way I'd break every liquor joint in the country and would take every person who drinks the stuff, lay them across my knee and administer a sound spanking."

This outburst came at a hearing of the applications of John B. Hansen and W. D. Elton of Los Angeles for probation after they had pleaded guilty of robbing Frank Leiby of Long Beach after Leiby had been beaten over the head with a beer bottle and a tent pole. The incident occurred below San Juan Capistrano several weeks ago after Leiby had given the young men a ride in his car. That night Leiby was supplied with a bottle of whisky, one of port wine and several bottles of beer, which he shared with Hansen and Elton, who blamed the effects of the liquor for their crime.

Judge West said he was not yet convinced that probation should be granted and continued the hearing to August 7. Several witnesses were in court to testify to the previous good reputation and habits of Hansen.

## FINDS MOTHER DYING.

Son Returns Home Too Late to Save Invalid's Life.

**(LOCAL CORRESPONDENCE.)**  
POMONA, July 29.—Fastening one end of a rope to a doorknob and throwing the loose end over the top of the door, Mrs. Elizabeth Rooma, 230 West Fourth street, formed a loop and hanged herself today. Dependancy over ill-health and financial straits were the causes. She was 60 years old.

## OLDEST EMPLOYEE QUILTS.

Charles B. Murphy, for the last thirteen years sewer inspector of the city, and the oldest municipal employee, tendered his resignation today. He was 75 years of age and had been in the service since 1897. Mr. Murphy will accept a position with the Pacific Mineral and Chemical company of Glendale. John A. Dooley, acting city engineer, announced that he had accepted the position of sewer inspector.

## INCREASE CAPITAL.

Officers of the Los Angeles Tuna Cannery Company, a Long Beach Harbor industry, today increased its capital stock from \$100,000 to \$200,000. The company, which is one of the largest of the kind in the harbor, announced that the rapid growth of the business demanded more capital.

## BURGLARY BY WOMAN?

Police Find Stolen Articles in Her Room—Arrest Her.

Charged with having burglarized the apartment of Mrs. Jennie E. Colwell at 617 East Fifth street, Jessie James, also known to the police as Bessie Howard, was last night lodged in the City Jail by Detective Sergeant Gamash and Burroughs.

## LET HER DAUGHTER LIVE WITH CHINESE?

MAN SAYS ACT CAUSED HIM ANGUISH AND HE SEEKS DIVORCE DECREE.

That Mrs. Rebecca Jaramillo allowed her daughter, Able Sheridan, to live at her home when it was being used by a Chinaman called "Mills," but whose true name is Mel Sing, was the charge made by the plaintiff in a divorce suit filed yesterday by Jose Jaramillo, according to Robert P. Rivera, attorney for the plaintiff. Mrs. Jaramillo is alleged to have allowed her daughter to live with the man, who is said to be a Chinese, and to have allowed him to use her home for his business. The man is alleged to have been a thief and a gambler.

## ARE TO CONTINUE OUTDOOR SERVICES.

**(LOCAL CORRESPONDENCE.)**  
SOUTH PASADENA, July 29.—Overruling the expression of those who wished to discontinue outdoor services in Garfield Park, voted to continue them in the open. Some complaints have come from the park, and the fact that the seats have no backs. To relieve this, the city will purchase some chairs for the park. The city will also continue the outdoor services in the park.

## COURT HEARING ARGUMENT ON APPLICATION PRESENTED BY GARMENT MAKERS.

Final argument will be made today before Judge Avery on an application for a temporary injunction asked by several local tailoring establishments to prevent the tailors from working in the city. The tailors are alleged to have been working in the city for several days, and the tailoring establishments are alleged to have been damaged by their work.

## THREE HOUSEHOLDERS BURGLARS' VICTIMS.

Three burglaries, one in the Boyle Heights district and two in the University district, were reported to the detective bureau last night.

## GRAVELY HURT WHEN HIS SIDECAR BREAKS.

Albert Brown, a plasterer, living at 2120 Spring avenue, Compton, was gravely injured when his sidecar broke down on the corner of Compton and Broadway streets. Brown was thrown from the sidecar and his head struck the ground. He was taken to the hospital, where he is now lying. The sidecar was damaged beyond repair.

## POLITICAL POT STILL BOILING.

Long Beach Commissioner Quits His Post.

Other City Employees Resign or Are Dismissed.

Sweeping Changes at City Hall Now Expected.

**(LOCAL CORRESPONDENCE.)**  
LONG BEACH, July 29.—Advancing the press of personal business as the reason, Fred B. Fritz, president of the Long Beach City Service Commission, which passes upon the qualification of aspirants to positions in the police, fire and health departments, resigned today from the municipal legislative body, to take effect July 31. Mr. Fritz, who was until recently secretary and manager of the Newell Clothing Company, is about to take office for himself.

The Civil Service Commission is regarded as the most important organization under control of the legislative body, as any and all changes which may be preferred against members of the health, fire and police departments must be reviewed and passed upon by the board.

There are three members of the commission, one new member, Dr. A. F. Hamman, has been named on the board by the reorganized legislative body, which now has a majority of four. The resignation of Mr. Fritz, who was until recently secretary and manager of the Newell Clothing Company, is about to take office for himself.

The Civil Service Commission is regarded as the most important organization under control of the legislative body, as any and all changes which may be preferred against members of the health, fire and police departments must be reviewed and passed upon by the board.

There are three members of the commission, one new member, Dr. A. F. Hamman, has been named on the board by the reorganized legislative body, which now has a majority of four. The resignation of Mr. Fritz, who was until recently secretary and manager of the Newell Clothing Company, is about to take office for himself.

## THE TIMES DOMESTIC PAGE

Being an intimate talk about things pertaining to the high cost of living together with some helpful hints, and straight from the shoulder news of things as they are and as they ought to be.

## SWEET SANDWICHES.

One-half pound chopped dates, one-half pound figs, one cup coconut, one tablespoon sweet chocolate, one scant cup sugar, one cup nuts, pecans preferable, two tablespoons butter. Rye bread or crackers. Method: Melt butter in saucepan, add rest of ingredients. Put mixture over the fire in a double boiler and stir well. After simmering for about ten minutes remove from the fire, allow to cool slightly then beat to a creamy consistency and spread on crackers or fresh rye bread. Lenora McLam, 4447 Lockwood street, Los Angeles.

## French Sweet Sandwich.

Butter and slice thin, sweet brown bread. Spread one slice with strawberry jam and the other half with cream cheese. Put together and cut in half. Mrs. M. L. Moore, 1033 Hyperion avenue, Los Angeles.

Brown Bread Sandwiches with Peanut Butter and Jam. Mix half cup molasses with one cup buttermilk, half teaspoon salt and one beaten egg. Sift into this one cup white flour and one scant cup graham flour, one scant tea-

spoon soda and one tablespoon melted fat. Beat well and bake in a moderate oven in a square sheet or in large well-greased baking powder cans for round sandwiches. When perfectly cold slice, not too thin, with a sharp knife. Spread with a peanut butter that has been thinned with a little melted butter. Place over this a slice which has been spread with any tart fruit jam. Marion Slicker, 121 South Normandie avenue, Los Angeles, Cal.

## Sweet Sandwich.

Between thin slices of graham bread put a filling of finely chopped walnut meats and marshmallows, moistened with enough cream to hold together. Trim the crust and make the sandwich round. Edna May Rising, 520 West Eighth street, Los Angeles.

## Dress Accessories.

There have been no developments in the dress accessories field. Laces and embroideries are selling freely; valings are much called for, especially in yardage goods for outing use. Buyers of gloves are watching the market closely and are asking for early deliveries in most cases. The call for furs of all kinds continues insistent. Because of the present high range of prices the heaviest sales are on short coats and sets.

## PLEASE PASS THE SANDWICHES.

We told you so. Sandwiches are Los Angeles county's favorite food. That is if we are to judge by volume of replies in the good things to eat contests which appear on this page every Wednesday.

Each week these contests have been growing in favor, but this time the judges were fairly swept off their feet by the avalanche of enthusiastic sandwich makers. Everybody knows the friendly sandwich, and apparently everybody and his cousin has a favorite brand.

Out of the hundreds of replies received the Croix de Guerre has been awarded to three lucky inventors, and by actual count honorable mention should go to 352 others. A few of the sandwich formulas are published today. Others will be printed next week. Still others will be saved for the new edition of The Times Cook Book.

If we go picknicking every day in the year, The Times contestants can furnish a new and delicious sandwich recipe for every trip. Such a host of suggestions for the most delectable sandwiches have been received in response to last week's offer that it's perfectly bewildering to attempt to decide which has the most merit. There is a deep regret among the Times judges that no one had the foresight to ask for samples instead of recipes. The replies received cover sandwiches to satisfy every taste. Of course there are necessarily many that are almost duplicates but everyone is delicious and appetizing. There's even the sandwich that is a "poem"—submitted by Mrs. John E. Murray, 2175 Cambridge street, Los Angeles.

**The "Poem" Sandwich.**  
Ingredients: Pepper (Bell)  
Olives  
Eggs  
Meat  
Chop fine, each separately:  
1 small Bell Pepper.  
1 dozen ripe Olives.  
1 hard-boiled Egg.  
2 small cups Meat, lamb or veal.  
Mix well the above, stirring in:  
1 teaspoon grated onion.  
1/4 teaspoon salt.  
1/4 teaspoon mustard.  
1/4 teaspoon red pepper.  
When thoroughly mixed, add 1/2 cup Mayonnaise.  
Spread this mixture between thin slices of bread, cut diagonally.

Second prize—Angelino fruit sandwich—submitted by Mrs. George Harrah, R. F. D., Colton, California.  
Stoned prunes.  
Seedless raisins.  
Dates.  
Figs.  
Brazil nuts or pecans.  
English walnuts.  
Neufchatel cheese.  
Entire wheat bread.  
Orange juice.

Wash equal parts of prunes, raisins, dates and figs; prepare half as many Brazil nuts, pecans and English walnuts. Put through a food chopper—first a little fruit, then a few nuts; add a little orange juice.

**The GOOD FAIRY**

**Lee's Yum-Yum Sandwiches.**  
Chop very fine the following vegetables:  
1 stalk or leaf of celery.  
Small head of lettuce.  
1 very small onion (can be omitted).  
1 can of red pimentosa.  
3 hard-boiled eggs, minced fine.  
1 can of devilled olives.  
Mix altogether with 2 or 3 tablespoons of mayonnaise dressing.  
Add a little salt to suit the taste.  
Spread mixture crisp lettuce leaf with more mayonnaise if liked, between thin buttered slices of bread.

**Mayonnaise Dressing.**  
First if you don't keep your salad oil in ice chest, then place 2-3 of teaspoonful on the ice to chill.  
Mix 1-2 teaspoonful of salt, 1 tablespoonful of sugar, 1 teaspoonful of dry mustard, 3 or 4 teaspoonfuls of vinegar, a dash of cayenne, stir together till smoothly blended; add 2-3 cupfuls of oil has been added. Dressing should be almost thick enough to alight and used so in the above. For table salads it can be thinned by adding condensed milk to desired consistency. Keeps a long time. (Condensed milk takes the place of eggs.)

**Caviar Delight.**  
1 can of Russian caviar (small).  
1 medium sized onion.  
Several crisp lettuce leaves.  
Eight thin slices of rye bread.  
Chop onion fine and pull lettuce apart into small pieces.  
Cut each slice of bread in half and toast to a nice brown but not too crisp. Butter the toast and place the lettuce leaves and add the caviar. Now place the salted chopped onion on the caviar and add a few more lettuce pieces and the other half of the toast. Care must be taken not to get the onion too salt as the caviar is quite salty.

**SEEK MACHINISTS HERE.**  
Edward T. Ryan, secretary of the Federal Civil Service Commission, announced yesterday that he will receive applications of machinists wanted at the Mare Island Navy Yard, where just now there is a great demand for that class of workmen. The pay is \$4.40 a day, but those who are accepted are compelled to pay their way to Mare Island. Temporary appointments are made permanent when the examination has been rated and they are found to be eligible. Mr. Ryan stated. Further details may be had by applying to Mr. Ryan in the Federal Building.

## RECIPE CONTEST IS FREE FOR ALL.

This week's contest should be a great success, for the sky the limit. It is to be a free-for-all go-as-you-please affair without a single restriction as to what you are to write about.

Send the recipe that is nearest your own heart. It may embrace anything from soup to nuts, and may a watchful Providence have mercy on the judges.

A slight change is made in the prize award. Instead of two \$1 prizes for the second and third awards, the second prize will be \$2 and the third prize \$1. As many of the recipes as possible will be printed and preference for publication will be given those prepared in the most legible form.

Write only on one side of the paper, and at the bottom include the words, "Submitted by," followed by your name and address.

In a contest as popular as this one surely will be it will not be practicable to judge more than one recipe from each contributor, so send that which you think is your own prize epicurean essay. Address all replies to Editor Times Domestic Page and see that they are in hand by Saturday night.

Third prize—mock turkey sandwich—a favorite recipe of Imogene B. Wallerstedt, Rosamond, California.  
Mock Turkey Sandwich.  
Mix in bowl, with silver fork, one can of tuna, one cup of finely chopped bell peppers, one-half cup of good salad dressing. Season with salt, paprika and a liberal sprinkle of sage. Spread thickly between well buttered slices of bread and cut sandwiches in half, wrapping each in waxed paper.

And as for special mention! The Times judges are certain that all the recipes are deserving of that, but honorable mention should go to Mrs. J. H. Francis, 834 E. Avenue 28, Los Angeles, for two unusual sandwich butters, which would lend an appetizing touch to a simple bread-and-butter sandwich.

**Horseshoe Butter.**  
6 tablespoons butter.  
1 teaspoon lemon juice.  
4 tablespoons grated horseradish.  
Few grains salt.  
Rub butter to a creamy consistency, gradually work in lemon juice, horseradish and salt.

**Mustard-Butter Sandwiches.**  
Cream 4 heaping teaspoonfuls butter and 1 teaspoon prepared mustard until thoroughly blended. Cut rye or white bread into thin slices; spread one slice with the above mixture, then a thin slice of cheese, another buttered slice of bread; over the top slice place the layer of thinly-sliced pickles (dill, sweet, sour) top with third slice of bread. Cut in inch wide strips.  
And another honorable mention goes to Mrs. D. S. Lee, 3533 1-2 Flower street, Los Angeles, for sandwiches which any man would surely be voted well named, although some of our readers might prefer to have a mayonnaise dressing made without so much oil.

## SANDWICHES FOR AFTERNOON TEAS.

Is your preference for that toothsome dainty, known as the "sweet sandwich?" You couldn't desire anything more delicious for your porch party or afternoon tea than the delectable combinations made from the following recipes.

**Raisin Conserve Sandwich.**  
One cup of seeded raisins, 1 cup of sugar, 1 lemon, the white of 1 egg with a touch of salt.  
Removing seeds, boil the lemon fifteen minutes. Put in food chopper together with the raisins and grind thoroughly. Put this in a large bowl, with the sugar and white of egg, and beat until all comes light and foamy. Delicious sandwich filling. Is excellent also for layer cake, for a conserve on the table, or for spreading on wafers with tea. Is economical and highly practical, as it keeps indefinitely in an open jar in a cool place, and calls for only such ingredients as every California pantry contains.—Mrs. N. H. Marquis, 1338 West Fifth street, Los Angeles.

**Fruit Sandwiches.**  
Chop together equal proportions of dates and figs, and about half as many nuts. Moisten with cream or milk and spread between slices of buttered bread. Pineapple juice may be substituted for the cream.—Miss N. Gilbert, The Palms, 8 Garey avenue, Pomona, Cal.

**Fresh Fruit Sandwiches.**  
These fruit sandwiches are delightful with coffee. On a thin, smooth slice of bread, lay two or three halves of mellow peeled peaches, crush slightly—enough to fit to the slice, sugar lightly, and press on a half of a fresh mint leaf, torn into tiny bits, is good with this.  
Pear sandwiches are even more delicious with coffee. Bananas, sandwiches are also fine; slice the bananas lengthwise, and dust with sugar.

**Honey-Nut Sandwiches.**  
To one cup of honey add one-half cup of walnuts which have been

put through a food chopper, mix these well. Cut thin slices of either white bread or nut bread and butter each slice and spread with the mixture. Arrange on a lace paper and garnish with watercress. Sufficient for fifteen sandwiches.—Mrs. A. P. Snook, Colton, Cal.

**Five-o'clock Tea Sandwiches.**  
One pound of raisins, 1 pint devilled olives, 1 pint sweet pickles, 1 small can of pimentosa. Chop all ingredients fine and mix well with boiled salad dressing. Spread between thin slices of buttered bread and cut into finger strips. Lettuce or watercress may be used as a garnish, if desired. In order to facilitate ease and rapidly in making sandwiches, shave the crust from the entire loaf, have the butter thoroughly creamed, and butter the end of the loaf before slicing. When enough bread has been prepared spread and cut into desired sizes and shapes.—Lillian A. Schloesser, 1991 Argyle avenue, Hollywood.

**IT'S LITTLE THINGS THAT REALLY COUNT.**  
Neckwear, hosiery, gloves, frequently make or break a woman's smart appearance. To read her character, look at the state of her heels, is an admonition frequently heard, but there are other little things that count a lot in making a woman's costume trim and charming. Fresh collar and cuffs sets add much during July and August in preventing a dress or suit from looking wilted. And the stores are offering remarkable reductions on a varying line of collars and vests. There are white pique ones hand embroidered for linen or pongee suits. The all-lace vests are good with summer suits and much worn with the bright sweaters. Fresh frills for gingham frocks may be had in endless varieties of platings and colors.

**CONVICTION CONFIRMED.**  
Division No. 2 of the District Court of Appeal yesterday affirmed the judgment of conviction of manslaughter pronounced in Superior Judge Willis's court against Edward J. Bray, convicted of the killing, October 27, 1918, Mrs. Bertha May Willis, the wife of Kent Willis, with whom she was not living, but from whom she had never been divorced.

President Wilson will marvel when he comes to Los Angeles—when he sees the sun-kissed, milk-fed children, the best developed of any in the world.

It is conceded by all that sunshine, pure air, and pure milk will make the strongest children possible. For over 12 years Arden Dairy Certified Milk has played an important part in the development of Los Angeles families. That the good work may be extended to all parts of the county the owners of Arden Dairy have made arrangements so that pure, clean, and fresh milk may be had in nearly every section. Arden agents have been established, so that their milk may be secured at the following places:

**HOME CANNING HINTS.**  
*Directions and Suggestions that Should Insure Success.*  
There is no secret about success-  
ful canning. Absolute cleanliness  
and the best materials procurable  
are the most important essentials.  
Vegetables can be canned as perfect-  
ly and as easily as fruits, but they  
must be as fresh from the garden  
as possible. Wilted or long-picked  
vegetables are not worth canning  
for they will develop a flat taste and  
a disagreeable odor. Corn and beans  
should be canned as soon as possi-  
ble after gathering as their pods  
and husks absorb their flavor.  
**COLD PACK METHOD.**  
In canning both fruits and vege-  
tables, the "cold pack" method is  
generally accepted as the most satis-  
factory. A trip through the house-  
hold departments of the Los Angeles  
stores reveals many tested devices  
to make canning easier, each ex-  
cellent in its way, but the same re-  
sults can be procured—with more  
labor to be sure—by utilizing a com-  
mon wash boiler provided with an  
extra bottom. There are many var-  
ieties of wooden racks for this on  
the market, but in the absence of  
any of these strips of wood  
across the bottom so that the jars  
will not touch each other or the bot-  
tom of the boiler will answer the  
purpose. If you are canning one  
or two jars at a time, a large  
kettle will answer the purpose.  
**IMPORTANT STEPS.**  
(1.) Blanch in boiling water to  
shrink and sterilize.  
(2.) "Cold dip" quickly.  
(3.) Pack at once in clean jars.  
(4.) Add boiling syrup or water.  
(5.) Place rubbers and partially  
seal.  
(6.) Put on rack in cooker or  
wash boiler.  
(7.) Sterilize.  
(8.) Tighten covers.  
(9.) Invert and cool.  
(10.) Label. If tinted glass is  
not used, wrap green vegetables to  
prevent bleaching.  
Glass is the most satisfactory jar  
to use in canning. Not only will  
a glass jar last indefinitely with a  
little care, but tin is more or less  
soluble in the acids or juices of the  
fruits and vegetables. While there  
are many kinds of jars on the mar-  
ket, the preference should be given  
to those with the wide mouths. It  
is well to use different sizes, quarts,  
pints, and a few half pints and two-  
quart sizes.  
**PERFECT CLEANLINESS.**  
Be certain that the jars are abso-  
lutely clean. Even if they were clean  
when put away, sterilize them afresh  
before beginning. The best way to  
do this is to put cans and covers  
into a kettle of cold water and bring  
gradually to the boiling point. Then  
boil for a quarter of an hour. Leave  
the cans in this hot bath until  
ready to use, then take out one at  
a time and fill. Be sure tops and  
cans are a perfect fit and that the  
can rubbers are new. It pays to  
buy the heavy rubbers instead of the  
cheap thin kind, and it is much bet-  
ter to buy new rubbers each year  
than have a can of fruit spoil be-  
cause of a defective rubber.  
**CANNED STRING BEANS.**  
If possible, can string beans with-  
in five or six hours after they are  
picked. If from your own garden,  
can them within the hour. String  
and grade them to uniform size.  
Blanch in scalding water three to  
five minutes, dip at once into cold  
water. Fill thoroughly sterilized  
jars, pressing in compactly until the  
jar is filled to within one inch of  
the top, add a teaspoonful of salt  
and fill with cold water to the top.  
Adjust the rubber ring, screw top  
partially down, or if you use the  
spring top jar do not press it down.  
Have ready the boiler or large bot-  
tomed kettle with wooden or wire  
rack in the bottom. Put in as many  
jars as the space will accommodate,  
being sure that they do not touch.  
Pour in cold water to cover the cans  
to about half their depth, adjust the  
cover of the boiler, bring to a boil  
and sterilize for two hours in steadily  
boiling water. To be certain they  
are cooked long enough you can test  
them with a toothpick. They should  
be firm, but easily pierced. Remove  
the jars from the water, wipe dry,  
screw or clamp tops down tight, in-  
vert jars to test for leaks and let  
them remain until cool. When cold,  
label and put away, wrapping to  
prevent bleaching if they cannot be  
stored in a dark closet. In taking  
jars from the boiler, be careful not  
to expose them to drafts as a sud-  
den change in temperature is liable  
to crack the jar.  
**CANNED CORN.**  
Select corn that has grains full  
of milk and before they have com-  
menced to harden. Husk, silk and  
with a sharp knife cut the grains  
from the ear, pressing out the juice  
from the hulls and adding it to the  
grains. Pack the jars as tight as pos-  
sible, add a teaspoonful of salt and  
proceed as for the string beans.  
**SUMMER SQUASH.**  
Cut into cubes, pack into jars with  
the usual amount of salt and water,  
and cook the same as the beans,  
testing at the end of the two hours  
to be certain that it is tender.  
**CANNING GREENS.**  
As spinach and other greens shrink  
greatly in the cooking cook in a  
little boiling water until tender, then  
dip in cold water, pack into jars,  
pressing down tightly, fill the jars  
with boiling water, adding one tea-  
spoonful of salt, sterilize for one and  
one-half hours.  
**CANNED BEETS.**  
Use very wide mouthed jars, select  
small, uniform and tender beets,  
blanch in boiling water for five min-  
utes, cold dip and scrape off skins.  
Pack in jars whole, add boiling wa-  
ter and one teaspoonful of salt, fix  
rubbers and partially screw down  
tops. Sterilize an hour and a half  
in boiling water.  
**USING WRONG UTENSILS.**  
In blanching vegetables or cooking  
fruits before canning, never use iron  
or tin utensils since the acid of the  
fruit attacks these metals and a bad  
color and taste may result. Cook all  
fruits and vegetables in granite or  
enameled kettles. Silver or wooden  
spoons should be used for the same  
reason.  
**SAVE YOUR BOTTLES.**  
Be sure to save all your bottles,  
especially the wide-necked ones, for  
putting up fruits, preserves, jellies  
and fruit juices. Prices of glass of  
all kinds are higher than ever and  
old bottles, sterilized perfectly,  
sealed with corks and paraffin make  
good containers. Ordinary small-  
necked bottles are excellent for  
preserving fruit juices. Also as sub-  
stitutes for glass there are the new  
paper jelly cups, made in all sizes  
from two ounces up to sixteen, are  
perfectly sanitary, have covers which  
snap in and are air tight, can have  
coating of paraffin as an extra pre-  
caution and are quite inexpensive.  
One Los Angeles family makes ex-  
cellent use of these by taking a can-  
ton or two of them to their sum-  
mer home. There where logan-  
berries and raspberries are plentiful,  
they make delicious jams which are  
easily transported back to the city in  
the fall. Where there are a few  
berries left over after a meal they  
are turned into jam and the small  
quantity placed in one of these pa-  
per containers. It is quickly done  
and it is surprising what an ac-  
cumulation of goodies can be ac-  
quired.  
**MORE NEED THAN  
EVER FOR THRIFT.**  
There hasn't been any particular  
encouragement in the news this last  
week for those who have been hop-  
ing for lower prices and the time  
when the cost of necessities  
wouldn't consume practically the en-  
tire family income. At a gathering  
of the retail merchants of the Mid-  
dle West and Southern States held  
in Chicago last week it was pre-  
dicted that cotton goods would ad-  
vance 50 per cent.  
At the same time in New York  
City the annual convention of the  
American Clothing Designers As-  
sociation was being held—and they  
predicted an increase of 100 per  
cent. in the cost of men's clothes.  
From Redlands comes the infor-  
mation that "every form of canned  
fruit is going to soar to unheard of  
heights next year. Fruit is high,  
cans are high. The canner will  
charge more, the wholesaler will  
take his profit, and the retailer will  
add his, and you can see where the  
consumer will get off."  
There's one bit of consolation,  
though. Sugar is not as high as  
last year and we're not limited in  
the quantity we can buy. We can  
watch the markets for bargains in  
fruit and the cost of materials will  
be our only cost—we won't need to  
pay tribute to the various organiza-  
tions through whose hands fruits  
pass from the time they leave the  
orchard until they stand in gaily  
labeled cans on the grocer's shelves.  
Read the explicit articles on home  
canning in today's Times, remem-  
ber that fall of prices over us and  
make a couple of hours' labor a few  
mornings each week pay good divi-  
dends in well-stocked shelves of  
canned vegetables, fruits and pre-  
serves next winter.  
**Silk Situation.**  
Raw silk prices have receded  
slightly in Yokohama and in the lo-  
cal market. Sinahin No. 1, for ex-  
ample, is now quoted at 2200 yen  
in the Japanese market, with other  
grades at proportionate prices. This  
is a drop of 130 yen, or about 65  
per cent of 135 pounds. Even at the  
new quotation the price is high  
enough to make the cost of finished  
silks considerably higher than was  
charged when the war was at its  
height.  
**Women's Garments.**  
In the women's garment trade the  
attention of buyers and of sellers is  
concentrated largely on suits. Two  
styles are favored. One has a jacket  
cut straight and loosely belted, the  
other has a semi-fitted jacket with  
a fullness over the hips.  
The demand for garments of all  
sorts is well sustained, dresses,  
skirts, waists and coats all receiving  
attention.

## COMMUNITY PLAY

**PASADENA COMPANY TO GIVE PROGRAMME NEXT WEEK.**

**By Edwin Schallert.**

The Pasadena Community Players are to come to the fore again with presentation of three playlets next Friday evening at the garden center of Miss Eleanor Biswell, Prospect boulevard, Pasadena. The programme will be given under the direction of Miss Clyde Bell, and a feature of the evening will be an address on the one-act play by Dr. Richard Burton of

...the plays to be staged at the University of Minnesota, and the former president of the Dramatic Society of America.

The plays to be staged at the University of Minnesota are "The Song of the Lark," "The Lady Lotus Eyes," a Japanese Idyl by R. A. Purrington; "Lolilo," by Stark Young, and Lady Mary's "The Workhouse Wards," in which those who will take part are: George Felton, Harold Bessie, Thomas Igms, Oliver Prickett, J. W. Morin, Orrin Knox, Ann Campbell and Miss Dalzell.

Samuel R. Brown, managing director of the Pasadena Community Playhouse, is at present in Berkeley, and he will appear with Ruth St. Denis in a spectacular production of "The Mother of Moses," at the local theater.

The very original name of ZaZu was "Zhu Zhu," the star of "Better Times," at the time she was buried in the oblivion of her family and her friends. After she had been buried in the offices of the casting directors at the different studios for several months and just when her management was running riot with her and almost persuading her to give up her dreams of a pic-

that that promised three meals a day, a producer who had seen her in a small bit for a picture offered her a year's contract provided she would drop what he termed her "improbable and absurd name" and assume another which he had come up with for her and believed would be more effective.

"My name fits me like a glove," replied Miss Pitts. "It may sound like the monicker of a ginger-snapper, but all my magazine friends says it's all my own and now that I'm getting parts which fit me so naturally as the 'pathetic jazz kid'—"

## Cadet Hosiery Company

We are advised that the CADET HOSE COMPANY shipped and billed merchandise totaling \$39,292.37 during the week ending July 12th. This amount was made up of

NEW YORK STOCK MARKET. FINANCIAL AND TRADE REVIEW.

[BY A. P. NIGHT WIRE.]

NEW YORK, July 29.—The stock market was in a receptive mood during the greater part of today's moderately active session, the uncertain price trend again indicating enforced caution by the trading element.

United States Steel lost slightly over two points in the two to five-point reaction of the forenoon, but recovered in the final hour, when the list, oils and standard rails excepted, displayed fairly strong recuperative powers.

Pools were especially active in tobacco, New York Dock, common and preferred, American Drug Paper preferred, United Fruit, United Cigars, United Retail Stores and several others.

Old United States bonds were unchanged on call.

## DIRIGIBLE BASE IS OFFERED US.

Washington Confirms Report; Means Big Expenditure.

Goodyear Plant Gives City an Added Advantage.

Must Grasp Opportunity, Says Chamber's Secretary.

Word was received by the Chamber of Commerce from Washington, D. C., yesterday confirming the announcement in The Times of the government's desire to obtain a site near Los Angeles for the establishment of a base for the first dirigible to be used on the Pacific Coast for military defense. Congressman Henry Z. Osborne, from whom the telegram was received by the chamber, explained that while the government would consider a site of from 750 to 1000 acres, more than ten miles from the ocean, it was not prepared to pay more than a nominal cost for the property. "All funds for purchasing lands have been cut off by Congress," the telegram said, "and the department is compelled to depend upon local municipalities that consider such locations desirable for necessary land. The department would like to locate such a site in Southern California, but would have no objection to any part of the State that would present suitable location."

**POINT OUT ADVANTAGES.** The government's desire to locate its first dirigible base near Los Angeles, according to information at the chamber, is the result of an investigation made by army authorities at the time the matter was first broached. The report sent to Washington by these investigators said in substance that Los Angeles as a headquarters for airship research and development, for both "rigid" and heavier-than-air types, had advantages over any other Pacific Coast point. The advantages detailed in this report included climate, strategic location, proximity to army aeronautic and aviation schools, nearness to great oil-producing regions, adaptability as a base for the aerial charting of unexplored areas, situation with respect to large and valuable forest reserves and the position of the city as the center of a vast population for men of wealth and leisure.

"Los Angeles being the tenth city in population in the United States," the report said, "the central location in Southern California, the terminus of a great railway system, and a great and growing shipping port, calls for these displays have a tendency to encourage improper use of firearms and increase crime. After a report from the City Council on city and State laws on the general subject, the Council has decided that there is sufficient legislation, and that its enforcement is the thing to be desired. To this end the Council yesterday morning sent the City Attorney's report to the Police Commission, with the recommendation that the police department be instructed to fully enforce existing ordinances. The commission at that meeting had already taken this action, when Robert T. Hale and others appeared before it to urge that closer attention be given to the matter of firearms being carried promiscuously."

"It would be regarded by the chamber as overlooking one of the

## HALF MILLION IN AUTO FEES.

County's License Income is Hundred Thousand More Than Last Year's.

Receipts for automobile licenses will yield Los Angeles county this year more than \$100,000 in excess of the sum received last year. A notice received yesterday by the Board of Supervisors from the State Highway Commission shows \$521,109 from this source will be due the county from the State. The money will be used for road work. Half the receipts in California go to the State and half to the counties, in proportion to the total of license money from each.

**WILL CO-OPERATE.** President Seiberling, through the fact that the Goodyear company at its plant was able to form a strong basis for the future relations which he expects to enjoy with the government, in connection with its plans for establishing aeronautical bases on the Pacific Coast. Mr. Seiberling has already announced that as soon as the research laboratory, to be installed by him at the local Goodyear plant, is ready for service, it will be open to the government. While this would forestall the need of the government going to the expense of establishing a research laboratory of its own, it is pointed out that it will still need a site for the dirigible base, the cost of building which would approximate \$4,000,000, in addition to \$2,000,000 for each dirigible airship. The government, it was stated yesterday at the chamber, is eager to have the question of site settled at once, and unless Los Angeles acts quickly the choice may fall on some point in the north.

University Lecturer Talks of Immigration Needs.

Selection and Limiting of Members are Suggested.

Registering and Compulsory Schooling Advocated.

Advocating registration of the immigrant when he lands and wherever he locates, and continued surveillance each time he moves, until he is naturalized, Dr. Frank Wilson Blackmar lectured yesterday at the University of Southern California on "Americanization and Immigration." He also spoke in favor of compulsory naturalization and schools specializing in instruction in English and the rights and duties of citizenship. These schools to be compulsory for immigrant adults as well as children.

Dr. Blackmar gave a historical resume of the old immigration and the new. In outlining possible safeguards for future Americanization, he said: "There is a well established tradition, so deep seated that it has been incorporated into the genius or spirit of America, that the home of the American is the home of the pressed of every land; that a standing invitation is issued to every person suffering with religious, political, economic or military oppression to come to the United States, move in and take possession."

**CHARACTER CHANGED.**

"Limitations in this respect of a new phase of the question. Also, the change in the type and purpose of immigration has accentuated the importance of the problem. In the old immigration prior to the Civil War, political and religious freedom and economic betterment were the chief impulses causing immigration. These, coupled with a desire to escape part in popular government, indicated the character of the immigrant. In the new immigration of recent years, genuine desire to become a part of a great free people, to labor and sacrifice for the principles of liberty and justice, have been dominated by a selfish desire for economic gain.

## WAR BEER MEN CEASE TO SELL.

Will Await Court Decision on Gandier Ordinance.

Police Board Backs Home in Continuing Arrests.

Liquor Men Get Chief Cited on Contempt Charge.

No more 2.75 per cent. beer will be sold by local liquor dealers until Friday afternoon when Superior Judge Grant Jackson is expected to give a decision as to whether the Gandier ordinance is still in effect or whether it became void following the adoption of national prohibition.

This decision was reached late yesterday afternoon following a conference between Chief of Police Home, the Police Commission, the liquor dealers and their attorneys, when the entire matter and the pending litigation was thrashed out. The conference was held at the request of the liquor men, who understood the commission backed Chief Home up in his policy of action.

## SOLDIER PAPER AID TO MORALE.

Head of "Trench and Camp" Tells of its Success.

Here from Virginia on First Trip to Los Angeles.

Impressed by Evidences of City's Growth.

Following a long period of war work activities, John Stewart Bryan, publisher of the Richmond (Va.) News-Leader and president of the national organization of newspaper publishers that printed Trench and Camp for American soldiers in every army camp in the United States, is making a tour of California, his first visit to this State.

Mr. Bryan, in Los Angeles yesterday, expressed delight at the beauty of this and other California cities he has visited and was strongly impressed with the rapid industrial and business growth of the country. From here he will go to Yosemite Valley.
